SUBJECT INDEX

Algorithms
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Amplification
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Anchorages
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Arid lands
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Bearing capacity
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Bearings
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Bolts
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Tension Control Bolts: Strength and Installation, Geoffrey L. Kulak and Scott T. Undershute, BE Feb. 98, p15-20.

Bridge decks
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Bridge design
Case Study of Bridge Design Competition, Eric M. Hines and David P. Billington, BE Aug. 98, p93-102.

Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Bridge loads
Proofload Testing of Deteriorated Steel Girder Bridges, Vijay Saraf and Andrzej S. Nowak, BE May 98, p82-89.

Bridges
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Rating Factor Computations for Shear-Moment Interaction, Brian L. Goodrich and Jay A. Puckett, P.E., BE Nov. 98, p155-158.

Structural Reliability in Bridge Engineering, Dan M. Frangopol, Michel Ghosn, George Hearn and Andrzej S. Nowak, BE Nov. 98, p151-154.

Bridges, box girder
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Bridges, cable-stayed
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Cable-Stayed Bridges—Parametric Study, T. P. Agrawal, BE May 97, p61-67.

Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Bridges, composite
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Bridges, concrete
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Bridges, continuous
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.

Bridges, girder
Bridge Modal Properties Using Simplified Finite Element Analysis, Charles R. Farrar and Thomas A. Duffey, BE Feb. 98, p38-46.

Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.

Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Proofload Testing of Deteriorated Steel Girder Bridges, Vijay Saraf and Andrzej S. Nowak, BE May 98, p82-89.

Bridges, piers
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Bridges, railroad
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Bridges, suspension
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Building codes
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Cables
Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Case reports
Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Cellular structures
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Codes
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Competition
Case Study of Bridge Design Competition, Eric M. Hines and David P. Billington, BE Aug. 98, p93-102.

Composite structures
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Concrete, precast
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Concrete, prestressed
Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Concrete, reinforced
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Connections
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Connections, bolted
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Construction methods
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Continuous structures
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Corners
Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Corrosion
Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Corrosion control
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Creep
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Curvature
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Cyclic loads
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Damping
Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Demolition
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

SUBJECT INDEX

Algorithms
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Amplification
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Bridges, suspension
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Building codes
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Cables
Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Case reports
Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Cellular structures
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Codes
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Competition
Case Study of Bridge Design Competition, Eric M. Hines and David P. Billington, BE Aug. 98, p93-102.

Composite structures
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Concrete, precast
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Concrete, prestressed
Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Concrete, reinforced
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Connections
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Connections, bolted
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Construction methods
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Continuous structures
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Corners
Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Corrosion
Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Corrosion control
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Creep
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Curvature
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Cyclic loads
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Damping
Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Demolition
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

Diaphragms
Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Displacement
Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Distortion
Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Dynamic analysis
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Dynamic tests
Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Dynamics
Bridge Modal Properties Using Simplified Finite Element Analysis, Charles R. Farrar and Thomas A. Duffey, BE Feb. 98, p38-46.

Earthquakes
Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Elastomer
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Engineering
Structural Reliability in Bridge Engineering, Dan M. Frangopol, Michel Ghosn, George Hearn and Andrzej S. Nowak, BE Nov. 98, p151-154.

Epoxy coatings
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Equipment
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

Fatigue
Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Field tests
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Finite element method
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.

Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Finite elements
Bridge Modal Properties Using Simplified Finite Element Analysis, Charles R. Farrar and Thomas A. Duffey, BE Feb. 98, p38-46.

Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Flutter
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Fracture mechanics
Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Frames
Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Geometric nonlinearity
Behavior of Elastomeric Bridge Bearings: Computational Results, Osama N. Hamzeh, John L. Tassoulas and Eric B. Becker, BE Aug. 98, p140-146.

Germany
Case Study of Bridge Design Competition, Eric M. Hines and David P. Billington, BE Aug. 98, p93-102.

Girders
Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.

Grout
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Hangers
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

High strength bolts
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Humidity
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Incremental launching
Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Innovation
Case Study of Bridge Design Competition, Eric M. Hines and David P. Billington, BE Aug. 98, p93-102.

Installation
Tension Control Bolts: Strength and Installation, Geoffrey L. Kulak and Scott T. Undershute, BE Feb. 98, p15-20.

Instrumentation
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Interactions
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Rating Factor Computations for Shear-Moment Interaction, Brian L. Goodrich and Jay A. Puckett, P.E., BE Nov. 98, p155-158.

Interfaces
Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Laboratory tests
Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Length
Cable-Stayed Bridges—Parametric Study, T. P. Agrawal, BE May 97, p61-67.

Load distribution
Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.

Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Load tests
Bridge Stay Cable Corrosion Protection. I: Grout Injection and Load Testing, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p64-71.

Proofload Testing of Deteriorated Steel Girder Bridges, Vijay Saraf and Andrzej S. Nowak, BE May 98, p82-89.

Loads
Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Metals
Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Methodology
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

Modal analysis
Bridge Modal Properties Using Simplified Finite Element Analysis, Charles R. Farrar and Thomas A. Duffey, BE Feb. 98, p38-46.

Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Modeling
Bridge Modal Properties Using Simplified Finite Element Analysis, Charles R. Farrar and Thomas A. Duffey, BE Feb. 98, p38-46.

Models
Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

National Science Foundation
Structural Reliability in Bridge Engineering, Dan M. Frangopol, Michel Ghosn, George Hearn and Andrzej S. Nowak, BE Nov. 98, p151-154.

Nondestructive tests
Proofload Testing of Deteriorated Steel Girder Bridges, Vijay Saraf and Andrzej S. Nowak, BE May 98, p82-89.

Nonlinear analysis
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Numerical analysis
Dynamic Testing of Prestressed Concrete Bridges and Numerical Verification, M. M. Abdel Wahab and G. De Roeck, BE Nov. 98, p159-169.

Panels
Cable-Stayed Bridges—Parametric Study, T. P. Agrawal, BE May 97, p61-67.

Performance evaluation
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Prestressing
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Pretensioning
Field Study of Pretension in Large-Diameter A490 Bolts, Charles J. Oswald, Robert J. Dexter and Steven K. Brauer, BE Aug. 96, p121-126.

Tension Control Bolts: Strength and Installation, Geoffrey L. Kulak and Scott T. Undershute, BE Feb. 98, p15-20.

Probability distribution
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Ratings
Proofload Testing of Deteriorated Steel Girder Bridges, Vijay Saraf and Andrzej S. Nowak, BE May 98, p82-89.
Rating Factor Computations for Shear-Moment Interaction, Brian L. Goodrich and Jay A. Puckett, P.E., BE Nov. 98, p155-158.

Reliability
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Response spectra
Reliability-Based Method for Fatigue Evaluation of Railway Bridges, Daniel H. Tobias and Douglas A. Foutch, BE May 97, p53-60.

Restraint systems
Behavior of Nonlinearly Restrained Slender Bridge Piers, Giuseppe Mancini, Francesco Martinez y Cabrera, Marco Andrea Pisani and Antonino Recupero, BE Aug. 98, p126-131.

Retrofitting
Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Road surface roughness
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Safety factors
Concrete Bridge Demolition Methods and Equipment, Osama Abudayyeh, P.E., Anil Sawhney, Hossam El-Bibany and David Buchanan, BE Aug. 98, p117-125.

Scale models
Shear Distribution in Simply-Supported Curved Composite Cellular Bridges, Khaled Sennah and John B. Kennedy, BE May 98, p47-55.

Seismic design
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Seismic response
Performance of Bridge Seismic Retrofits During Northridge Earthquake, Mark Yashinsky, BE Feb. 98, p1-14.

Shear
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Shrinkage
Bridge Prestress Losses in Dry Climate, M. Saiidi, E. Hutchens and D. Gardella, BE Aug. 98, p111-116.

Skew bridges
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Splicing
Nonlinear FE Analyses of RC Bridge Frame Corners, Based on Fracture Mechanics, Mario Plos and Kent Gylltoft, BE Nov. 98, p204-210.

Steel
Laboratory Tests of Bolted Diaghragm-Girder Connections, T. E. Cousins and J. M. Stallings, BE May 98, p56-63.

Steel plates
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Stiffening
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Stiffness matrix
Cable-Stayed Bridges—Parametric Study, T. P. Agrawal, BE May 97, p61-67.

Strength
Tension Control Bolts: Strength and Installation, Geoffrey L. Kulak and Scott T. Undershute, BE Feb. 98, p15-20.

Stress
Nose-Deck Interaction in Launched Prestressed Concrete Bridges, Marco Rosignoli, BE Feb. 98, p21-27.

Stress distribution
Stress Distribution at PTFE Interface in Cylindrical Bearing, T. I. Campbell, M. F. Green, N. C. Koppens and A. C. Agarwal, BE Nov. 98, p186-193.

Structural behavior
Seismic Behavior of Steel Pile to Precast Concrete Cap Beam Connections, M. Steunenberg, R. G. Sexsmith and S. F. Stiemer, BE Nov. 98, p177-185.

Structural design
Rating Factor Computations for Shear-Moment Interaction, Brian L. Goodrich and Jay A. Puckett, P.E., BE Nov. 98, p155-158.

Structural reliability
Structural Reliability in Bridge Engineering, Dan M. Frangopol, Michel Ghosn, George Hearn and Andrzej S. Nowak, BE Nov. 98, p151-154.

Structural response
Shear and Reaction Distributions in Continuous Skew Composite Bridges, Tarek Ebeido and John B. Kennedy, BE Nov. 96, p155-165.

Structural stability
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Tests
Bridge Stay Cable Corrosion Protection. II: Accelerated Corrosion Tests, H. R. Hamilton, III, J. E. Breen and K. H. Frank, BE May 98, p72-81.

Three-dimensional analysis
Flutter Stability of Very Long Suspension Bridges, Miguel A. Astiz, BE Aug. 98, p132-139.

Torsion
Misplacement of Launching Bearings in PC Launched Bridges, M. Rosignoli, BE Nov. 98, p170-176.

Two-dimensional analysis
Cable-Stayed Bridges—Parametric Study, T. P. Agrawal, BE May 97, p61-67.

Vehicles
Dynamic Analysis of Existing Continuous Bridge, Mario Fafard, Martin Laflamme, Marc Savarad and Mallikarjuna Bennur, BE Feb. 98, p28-37.

Vibration control
Vibration of Inclined Sag Cables with Oil Dampers in Cable-Stayed Bridges, Y. L. Xu and Z. Yu, BE Nov. 98, p194-203.

Wheels
Effect of Continuity on Wheel Load Distribution in Steel Girder Bridges, Mounir E. Mabsout, Kassim M. Tarhini, Gerald R. Frederick and Abbas Kesserwan, BE Aug. 98, p103-110.
